

The Morgan Motor Company located in Britain doesn't change in a changing world.

Not only is it still independent, but it also makes each car by hand. A base model is about \$44,000, with some cars costing up to \$300,000. People wait for over a year to get their exclusive hand-built cars with the shell made out of metal and much of the vehicle made out of wood. Working on the wood interior, workers use metal shears to individually shape a hood because each car has to be different.

Every year Morgan produces about 600 cars. The company will celebrate its 100th anniversary in 2011. It has a long and interesting history, and is still run by the same family: the Morgans. Founded by Henry Frederick Stanley Morgan known as "HFS", it was then run by his son Peter, and is now run by Charles, the son of Peter Morgan.
