

The Woodies You May Never See Again..

Those were the days; when you had an accident,
you needed a good *carpenter more than a mechanic.*

Those were the days of *motor vehicles*, not cars!

Aren't they beautiful ????

Back in the days when cars had style, and even with so many makes and models, all changing every year, they made a profit.

And, not only that, you could sit on the porch and name the cars as they drove by.

Unlike today, when they all look the same.

This was when a car was a car!!!

Unfortunately you only got 30,000 miles before a valve job and 70,000 miles complete engine rebuild.

Tires lasted 10,000 miles and warranty was 90 days.

Petrol mileage? Fogetaboutit!
